

GMP VISION

ALL SOLUTIONS IN ONE PROJECT

Comprehensive Engineering Portfolio, Turnkey Services Catalog & Website Scope

Corporate Office & Registration:

Ground Floor, Flat No. 01, Amb Daultpur Road,
Bhanjal, Distt. Una, Himachal Pradesh – 177213
GSTIN: 02CZKPK1192C2ZQ

Manufacturing & Assembly Plant:

Khasra No. 231, Near MND Hub Biotech,
Village Dadhi Harnam, Nalagarh, Solan (HP) – 174101
(BBN Industrial & Pharma Corridor)

Direct Contact Channels:

Mobile: +91 9817343117 / +91 9317343117
Email: gmpvision3@gmail.com
Support: 24x7 Emergency Site Assistance

Executive Engineering Leadership:

Mr. Parveen Kumar — Chief Executive Officer (15 Yrs Exp)
Mr. Sachin Thakur — Projects Head (21 Yrs Exp)
Mr. Promise — Planning Lead (5 Yrs Exp)

1. Executive Overview & Single-Source Value Proposition

GMP VISION is a full-spectrum Turnkey Cleanroom (CRP), HVAC, and Industrial MEP Engineering Contractor specializing in regulated manufacturing facilities across the pharmaceutical, biotechnology, healthcare, and fine chemical industries. In contrast to fragmented subcontractors who only manufacture panels or only erect ductwork, GMP VISION delivers a seamless 'Concept-to-Commissioning' engagement model under the corporate banner 'All Solutions in One Project'.

Our turnkey methodology guarantees strict compliance with global and national regulatory standards: cGMP, WHO-TRS, USFDA, ISO 14644 Cleanroom Classifications, Indian Revised Schedule M, ISHRAE, and 21 CFR Part 11 digital compliance protocols.

2. Master Catalog of Services & Product Divisions

Division 1: Cleanroom Infrastructure & Modular Systems (GMP PUF Panels)

- **Modular Cleanroom Wall & Ceiling Panels:** Available in 50mm, 80mm, and 100mm thicknesses with high-density Polyurethane Foam (PUF / PIR) cores. Skins engineered with Pre-Painted Galvanized Iron (PPGI), Pre-Painted Galvalume (PPGL), or SS 304. Incorporates non-thermal break aluminum extrusion profiles with flush tongue-and-groove jointing.
- **Walkable Ceiling Systems:** Heavy-duty load-bearing ceiling grids with overhead maintenance suspension hardware, integrated flush cutouts for HEPA filters, cleanroom light fittings, and access hatches.
- **Cleanroom Flush Doors:** Single and double-leaf flush metal doors with silicone perimeter gaskets, automatic drop-down bottom seals, view panels, and magnetic interlock door controllers for airlocks.
- **Double-Glazed Flush View Panels:** Double-paned toughened safety glass installed completely flush with modular panels, treated with internal silica gel desiccant to prevent condensation.
- **Coving & Cleanroom Trims:** Extruded aluminum and PVC covings providing smooth concave wall-to-floor, wall-to-ceiling, and 3D corner radius transitions to eliminate dust-trapping angles.

- **Specialized Cleanroom Flooring:** Seamless self-leveling anti-static epoxy and heavy-duty Polyurethane (PU) floor coatings resistant to chemical disinfectants and forklift movement.

Division 2: HVAC & Air Handling Systems (Design, Supply & Erection)

- **Custom Air Handling Units (Double Skin AHUs):** Fabricated using thermal-break and non-thermal-break extruded aluminum profiles. Outer skin PPGI, inner skin GI / SS 304 with CFC-free injected PUF insulation. Equipped with high-efficiency backward-curved plug fans, EC motors, and VFD integration.
- **Dehumidification Units (DAHU / Desiccant Dehumidifiers):** Engineered for stringent low-humidity production suites (< 20% to 35% RH) essential for moisture-sensitive formulations (effervescent tablets, softgels, dry syrup filling, capsule packaging).
- **High-Efficiency Coils & Heat Exchangers:** Custom-built Chilled Water (CHW), Hot Water (HW), and Direct Steam coils with high-conductivity copper tubing, hydrophilic aluminum fins, and anti-corrosive SS casing.
- **DX Condensing Units & VRV/VRF Multi-Split Systems:** Direct Expansion condensing packages, multi-tier VRV/VRF systems for administrative, laboratory, and production areas including installation, piping, and maintenance.
- **Air Distribution & Ventilation:** Fan Coil Units (FCU), industrial Air Washers, and Heat Recovery Units (HRU - rotary enthalpy wheels and plate heat exchangers).
- **Fabricated GI Ducting & Insulation:** Factory-formed Galvanized Iron ductwork compliant with SMACNA and ISHRAE standards. Insulated with closed-cell elastomeric Nitrile rubber, XLPE foam, or fiberglass with reinforced aluminum foil.

Division 3: Air Purification & Cleanroom Filtration Catalog

GMP VISION manufactures and supplies a comprehensive range of air filtration products engineered for pharmaceutical, cleanroom, and hospital HVAC applications:

Filter Category	Efficiency / Class	Media & Construction	Key Applications
Pre-Filters	10 Micron (10μ)	Washable non-woven synthetic media, Aluminum / GI frame	Fresh air intakes, AHU primary stage, return air risers
Fine Filters	1μ, 3μ, 5μ, 10μ	High dust-holding synthetic / micro-fiber media (EU5-EU9)	Secondary AHU filtration, protection for HEPA units
Pocket / Bag Filters	3μ, 5μ, 10μ	Multi-pocket aerodynamic synthetic media with GI header	High-volume air filtration in pharmaceutical AHUs
Mini Pleat Gel Seal HEPA	H13 / H14 (99.997% @ 0.3μ)	Micro-glass fiber paper with hot-melt pleat & fluid gel seal	Zero-leakage sterile suites, Grade A/B filling lines
Standard / Deep Pleat HEPA	H13 / H14 (99.99%)	Micro-glass media with corrugated aluminum separators	Cleanroom ceiling grids, laminar airflow workbenches
High Flow V-Bank HEPA	H13 / H14 (up to 2000 CFM)	V-configured mini-pleat packs in ABS or metal casings	High-velocity supply ducts, exhaust air recirculators
Semi-HEPA Filters	EU9 / EU10 (95% @ 0.3μ)	Pleated micro-glass fiber paper, aluminum casing	Air showers, hospital corridors, secondary protection
Aluminium Wire Mesh	Coarse Separator	Multi-layered crimped aluminum mesh, washable	Grease extraction, moisture separation, spark arrestors

- **Cleanroom Terminal Hardware:** HEPA Terminal Housings (Hoods) equipped with damper adjusters, PAO/DOP aerosol injection ports, and differential pressure nozzles.
- **Stainless Steel Grills & Diffusers:** SS 304 perforated supply diffusers, 4-way swirl diffusers, and Return Air Risers (RAR) with built-in filter frames.
- **Cleanroom Equipment:** Static & Dynamic Pass Boxes (UV lamps + interlocks), Air Showers, Laminar Air Flow (LAF) benches, and RLAF Sampling/Dispensing Booths.

Division 4: MS & SS Process Piping & Heavy Structural Fabrication

- **Sanitary Stainless Steel (SS 304 & SS 316L) Process Piping:** High-purity orbital-welded piping loops with certified boroscopy for Purified Water (PW), Water for Injection (WFI), Pure Steam (PS), Compressed Dry Air (CDA), and Nitrogen (N2). Sanitary diaphragm valves and tri-clamp fittings.
- **Mild Steel (MS) Heavy Utility Piping:** Heavy-gauge seamless and ERW MS piping circuits for chilled water loops, condenser lines, and cooling tower manifolds with anti-corrosive priming and aluminum cladding.
- **Heavy Structural & Custom Fabrication:** Heavy-duty AHU mounting skids, vibration-damped equipment bases, overhead catwalks, duct suspension bridges, and cleanroom SS furniture.

Division 5: Industrial Water Treatment Systems (RO & ETP Plants)

- **Industrial Reverse Osmosis (RO) Plants:** High-recovery multi-stage purified water generation systems. Includes Multi-Grade Sand Filters (MGF), Activated Carbon Filters (ACF), dual-media water softeners, 5µ/1µ micron cartridge filters, high-pressure composite RO membranes, Ultra-Filtration (UF), and inline UV sterilizers. Supplies purified water for formulations, cleanroom washing, and boiler feed.
- **Effluent Treatment Plants (ETP) & Wastewater Solutions:** Complete turnkey industrial ETP plants compliant with State & Central Pollution Control Board (SPCB/CPCB) discharge limits. Features equalization, flash mixing, chemical coagulation, flocculation, biological aeration, secondary clarification, and Zero Liquid Discharge (ZLD) multi-effect evaporators.

Division 6: Electrical Panels, Distribution & Fire Plant Systems

- **Electrical Infrastructure (High & Low Side):** HT/LT substations, transformers, bus ducts, cable tray networks, cleanroom flush IP65 LED fixtures, and flameproof (FLP) electrical fittings for hazardous chemical/solvent dispensing suites.
- **Custom Electrical Control Panels:** Motor Control Centers (MCC), Power Control Centers (PCC), VFD speed modulation panels for AHUs, and flush SS cleanroom Remote Operating Panels (ROP).
- **Fire Protection & Plant Alarm Systems:** Microprocessor-based addressable and conventional Fire Alarm Control Panels, cleanroom optical smoke detectors, heat sensors, manual call points, automated cleanroom HVAC fire damper trip mechanisms, industrial fire hydrant systems, wet risers, and clean agent (FM-200 / CO2) flooding systems.

Division 7: Automation, BMS / EMS & Regulatory Validation / Qualification

- **BMS & EMS Systems (21 CFR Part 11 Compliant):** Centralized SCADA/PLC environmental monitoring for real-time tracking of Differential Pressure (ΔP), Temperature, and %RH with tamper-proof electronic audit trails and multi-tier user logins.
- **Full Turnkey Qualification Protocols:** Complete Good Documentation Practice (GDP) documentation including Design Qualification (DQ), Installation Qualification (IQ), Operational Qualification (OQ), and Performance Qualification (PQ).
- **Testing & Commissioning Services:** Air velocity profiling & ACPH calculation; room pressure cascading verification; in-situ HEPA DOP/PAO aerosol leak testing; non-viable airborne particle counting (ISO 14644 Class 5 to 8 / Grade A-D); thermal mapping of cold rooms and stability chambers; Pure Steam quality and compressed gas testing.

3. Proven Track Record & Client Portfolio

GMP VISION and its executive leadership team bring an established track record of successful turnkey cleanroom and HVAC projects across major pharmaceutical corridors:

Client Organization	Scope of Engineering Work	Project Location	Status
M/s Zeon Healthcare / Lifesciences Ltd	HVAC Turnkey with EMS System	Paonta Sahib, HP	Completed
M/s Penam Lifesciences / Biosciences	HVAC Turnkey Project	Kala Amb / Yamuna Nagar	Completed
M/s Windlas Biotech Ltd (Plants 4 & 6)	AHUs, Dehumidifiers & HVAC Installation	Dehradun, UK	Completed

M/s Wallace Pharma (Units 1 & 2)	Ducting, AHUs & Chilled Water Coils	Kala Amb / Jammu	Completed
M/s BioMarq Labs [Mankind Pharma Group]	HVAC Turnkey Cleanroom System	Selaqui, Dehradun	Completed
M/s Hindustan Antibiotics Ltd	HVAC & Cleanroom (CRP) Turnkey	Pune, MH	Completed
M/s Verve Human Care	HVAC Turnkey & R&D Center	Dehradun, UK	Completed
M/s Skins Pharma	HVAC Turnkey Project	Baddi, HP	Completed
M/s SKS Metals	HVAC Turnkey & Dehumidifier	Kala Amb, HP	Completed
M/s Infuze Well Pvt Ltd	54 HVAC Units (4 LVP Lines)	Mohali, PB	Completed
M/s Osppla Enterprise	Industrial Dehumidifier Installation	Ahmedabad, GJ	Completed
M/s Apy Pharma	AHU Supply & Air Distribution	Guwahati, AS	Completed

4. Website Structure & Digital Conversion Architecture

- **Global Navigation:** Mega-menu categories for Solutions (Turnkey Cleanroom, HVAC, Piping, Water Treatment, Electrical/Fire), Products (Air Filters, AHUs, Housings, Cleanroom Gear), Validation (ISO 14644, 21 CFR Part 11), Projects, and Contact.
- **Hero Section:** High-impact cleanroom imagery, animated headline ('All Solutions in One Project'), trust metrics (15+ Years Exp | 100+ Projects | 100% cGMP), and dual action buttons ('Explore Services' & 'Request RFQ').
- **Interactive Air Filter Catalog:** Tabbed filter selector with technical specification tables (CFM, pressure drop, dimensions, micron rating) and instant 'Request Custom Size' modal.
- **Digital Trust Badges:** Prominently displayed compliance seals: cGMP, WHO-TRS, USFDA standards, ISO 14644-1, Schedule M, and 21 CFR Part 11.
- **Multi-Channel Lead Generation:** 1-click direct WhatsApp chat to CEO (+91 9817343117), interactive project estimator form, downloadable catalog request, and dual facility map embeds.
